DETAILED ACTION

Allowable Subject Matter

Claims 1-21, 27-33, 51, and 55 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-19, the element of two light engine kernels patterning light in two separate color spaces is not found in the prior art.

In regards to claims 20-21, 27, and 28, an apparatus including a first and second means for switching in which the first means for switching is a three color switch, along with the rest of the structure and function of this claim is not taught in the prior art.

Regarding claims 29-33, the generating of two separate images with the two light engine kernels that receive light from a polarization separation means for creating a 3-D image is not suggested in the prior art.

Further referring to claims 51 and 55, the inclusion in each of the light engine kernels of a switching means, a single modulation means and a polarization beam splitting means together with a light polarization means and a light recombination means within a projection apparatus is not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
